## **Pardon my Alleluia!**

Alleluia is a word we associate closely with the great feast of Easter. Literally meaning ‘Praise the Lord’ it resounds as a joyous victory cry on Easter Day. Having remembered the sombre prayerfulness of the Last Supper, the awful spectacle of Good Friday and the silence of the tomb on Holy Saturday, the Easter Alleluia bursts forth as a joyful ‘yippee’ on the lips of believers throughout the world.

This is our second Easter living with the pandemic and many are experiencing it as more difficult to endure the second time around. We have had many sacrifices imposed on us this past year, and we’re not quite in Alleluia mode when it comes to Covid-19 and its relentless paralysing

effect on our world. It seems that we will have to endure a while longer before we can return to any semblance of the normality we knew.

Easter Day is a day of triumph, the triumph of Jesus over the worst the world could throw at him – rejection, suffering and painful death. Such was the strength of his love for us that he was willing to endure it all, that we might be saved in him. For the disciples that first Holy Week was a painful experience; the one they loved and hoped in is shamefully dealt with in a cruel and unjust way, and they stand by powerless, probably feeling hopelessly inadequate, and seized by shame at their own cowardice in abandoning him. At the time when Jesus most needed them they ran away. They probably imagined that this was the end of their relationship with Jesus – all seemed to end in tears. They remembered the words of Jesus that urged them to wait in prayer, and in their fellowship with one another found support that sustained them in their sadness.

But everything was to be restored on Easter Day – the Risen Lord held no words of condemnation or rebuke for his disciples, rather a gentle ‘Peace be with you’. Despite their shortcomings and inadequacies the Lord chooses them anew. The despair of Good Friday was banished forever. Easter filled them, as it fills us, with hope. Even when things look dark and bleak and the future uncertain, the reality of our Risen Lord shines a light that dispels all darkness. Whatever life throws at us we have reason to rejoice – the gates of heaven have been opened that we may enter! So please pardon my Alleluia!

We wish all the Christian people of Lucan every joy and blessing of this Easter Season. May the Risen Lord watch over, bless and protect each one of us, and may we grow daily in our love of him.

# Looking at Easter

Easter takes its name from Eostre, the Teutonic goddess of the dawn, whose heathen festival was held around the spring equinox. The Teutons were an ancient Germanic tribe. At the Council of Nicaea, Turkey in AD 325 it was decided that Easter should be the first Sunday after the first full moon occurring on or after March 21.

## Easter Statistics

The earliest possible date for Easter is March 22 and the latest possible date is April 25. The last time Easter occurred on March 22 was in 1818. The last time Easter occurred on April 25 was in 1943 and the next time that this will happen is relatively soon, in 2038. Some people will experience both of these Easters in a lifetime. In the full Gregorian Easter Cycle the most frequent date for Easter is April 19. The least frequent date is March 22. Please don't ask me to explain this! I'm not a statistician.

## Shamrock & Palm

The last time St. Patrick's Day and Palm Sunday fell on the same date was in 1940. Easter Sunday was of course on March 24 that year. In Kevin Danaher's book "*The Year in Ireland*" he tells us that when the shamrock and the palm were worn together something unusual is expected to happen. Usually it was taken as a happy omen. 1940 brought the best summer weather of the war years. June was especially fine with low rainfall and above normal temperatures. The Phoenix Park weather station recorded 8.5 hour's sunshine on average a day, well above the normal 6 hours daily sunshine. Maybe this was the happy event. Some cheering up was needed as the war news was gloomy. On June 14 1940 the German army took control of Paris. Two million Parisians had already fled the city.

## Warmest and Coldest Easter Sundays

Looking at the temperatures reported from Casement Aerodrome since 1970, we see that the warmest Easter Sunday occurred very recently. On April 21 2019 the maximum temperature reached 21C. This is noteworthy as the normal maximum for this date is 13c. The coldest Easter Sunday was April 3 1983. At Casement the temperature only reached 5C. The maximum temperature on the previous Christmas Day, December 25 1982 was 11C. A stark contrast. It's interesting to note that occasionally Christmas is warmer than Easter!

## A remarkably warm Easter period (1984)

On Easter Sunday 1984 the maximum temperature reached 13C at Casement Aerodrome. There is nothing remarkable about that. However, the following week, an easterly wind with settled conditions brought very high temperatures to the West of Ireland. A reporter in the Irish Independent described the atmosphere in Galway city at the start of its quincennial celebrations. The city resembled an old Spanish town with crowds enjoying the heat. On April 24 1984 the temperature in Galway reached 23C.

On April 26 Glenties, Co Donegal recorded a maximum temperature of almost 26C. This is an all-time temperature record for the month of April in Ireland.

## Old Easter Customs – Palm Sunday

On Palm Sunday families brought their own fronds of "palm" to the church to be blessed. Sprigs of yew or other conifers were used because palm wasn't available. Irish speakers often referred to Palm Sunday as Domhnach an Iúir (Yew Sunday). Men and boys wore a sprig of yew in their lapel or hat. Women and children brought their sprigs home to be hung in the house and barn to ensure protection from harm. A sprig of yew was kept to be used as a sprinkler for holy water.

### Easter Sunday Evening

Another old custom was the holding of a competitive cake dance on Easter Sunday evening. A barm brack was placed in full view on a milk churn. Animals, birds and fish were marked out on the raised crust. Couples danced to music. The couple judged to have the best dancing skills was declared the winner. They had the honour of cutting the cake and sharing it among friends.

### Weather Sayings

Weather sayings are interesting because they draw our attention to the weather its possible outcomes throughout the year. Here are two sayings. One is for Easter and the other is one to watch out for later in spring.

"If it rains on Easter Day,  
There shall be good grass  
But very bad hay".

"Swallows high  
Staying dry  
Swallows low  
Wet 'twill blow".

# CHOOL NEWS

## Lucan Community College

**GLOBE Air Quality:** A special congratulations to Keelah, Clodagh and Jessica on winning the GLOBE Air Quality prize draw with their recent project on Air Quality in Lucan. Well done girls - I'm sure the geography department will also be delighted with the prize of an automated weather station. Your dedication to the project since September has been exemplary. Congratulations Ms. Healy

**National Linguistics Olympiad:** Congratulations to David Wright (6th Year) for getting 4th place in the National Final of the National Linguistics Olympiad. David has secured a place on the International Team representing Ireland in the International Linguistics Olympiad (IOL) in DCU 19-23 July 2021. An amazing achievement - David has managed to achieve this and continue to successfully prepare for his Leaving Certificate exams in June 2021- bravo!!!

**Well done to Mr Coogan and Ms McCarthy's TY MOS computer classes**, some of whom recently completed remotely their Microsoft Office Specialist PowerPoint exam. These exams were challenging, so a big congratulations to students who now have achieved their PowerPoint MOS certification and badge. Good luck with the Excel exams coming after Easter.

**Well done to TY Global Citizenship students** for their recent positive engagement with an online workshop on global issues, delivered by Vicky from the One World centre, Galway. Lots of thoughtful contributions."

**Social Justice Class:** Social Justice Class in Transition Year welcomed Becca Gallagher, a Youth Education Officer from SVP to class on Thursday 18th. She introduced the topic of Power in Society and will return to us after Easter to continue the conversation. This is an important concept for our students as they look at the roles they play in our community.

**Stripe:** Lucan Community College is delighted to have been selected to take part in a virtual two-day TY event with STRIPE, the Tech company set up by the Collison brothers from Limerick and operating from Silicon Valley. STRIPE is a company that builds economic infrastructure for the internet.

This is a fantastic opportunity for the students who put their names forward and this will look impressive on their CVs in the years to come. We have celebrated the success of the young entrepreneurs from Limerick by naming a class in the college after them, so it is lovely to get an insight into their successes for our students.

*We wish all our school community a peaceful Easter and we look forward to welcoming all of our students back to the school building on the 12<sup>th</sup> April.*

## Tree of Hope

The Tree of Hope in A.G.P looks decorative from a distance. Up close, however, the tree appears woebegone. Weighed down under the weight of the petitions attached to it, it is struggling to survive. A similar fate befell a tree in Glendalough some time ago and on expert advice all the petitions were removed to enable the tree to thrive.

Perhaps those responsible for the planting of the Tree of Hope would see to it that it gets the TLC it needs to restore it to health. Given the reason for the planting of the tree it would be a shame to see its early demise.

### How to switch your account to another bank

[https://www.citizensinformation.ie/en/money\\_and\\_tax/personal\\_finance/banking/opening\\_and\\_switching\\_a\\_bank\\_account.html](https://www.citizensinformation.ie/en/money_and_tax/personal_finance/banking/opening_and_switching_a_bank_account.html)

You should review your needs and preferences from time to time. You might decide to switch your account to another bank because:  
Your circumstances have changed and you have different needs from an account

You have found an account that offers you a better deal

You are unhappy with the level of service that your bank is providing

You are unhappy with the fees your bank is charging

If you decide to switch your account you can get information to help you decide and there are rules about the process.

Check the CCPC's personal current account cost comparison to help you to see whether you can get a better deal from another bank.

If you decide to switch your account, the Central Bank of Ireland has issued a Code of Conduct on the Switching of Payment Accounts with Payment Service Providers (pdf). All banks, payment institutions and e-money institutions that offer payment accounts in Ireland must comply with the Code. The Switching Code is designed to make switching accounts quick and easy.

Under the Code all banks must provide a switching pack to their customers. This contains a description of all of the current accounts currently being offered to new customers, as well as a step-by-step guide to what you need to do when switching.

Your new bank must have your new account up and running within 10 working days of the switching date - this is the date agreed between you and your new bank for the process to start. You will be given the option to keep your old account, or to close it. You must let your new bank know before you switch.

If you keep your old account open you may have to pay charges on this account and stamp duty on your cards, even if you no longer use that account.

You can get detailed information on switching accounts from the CCPC.

### RTE Investigates Programme:

Last week's RTE investigates programme on the Department of Health policy of keeping documentation on families who had taking the state to court in regards to access to special educational needs for their children was disturbing. As a member of the health committee the committee has written to the Minister for Health and the department of health requesting clarification on a number of issues raised in the programme. These are serious questions which have to be answered in order for trust and transparency for those families involved.

Cumann na Sáirséalaigh Leamhcáin

Lucan Sarsfields GAA Club suffered a huge loss on Saturday March 27, when Trustee, Anna Carton passed away. Anna's involvement in the club from the time she moved to Lucan in the mid-seventies can only be described as phenomenal. Many of the people spoken to this week have told of her hard work and diligence in whatever task she undertook on behalf of the club, nothing was too much trouble for her, whether it was organising social events, refreshments, draws and raffles or the Céilí in the old clubhouse. Awarded Club Person of the year in 1994, Anna also served as treasurer on the Club Executive for seven years, it is said that she could account for every single penny, and was instrumental in the organisation of the Millennium Draw which raised over €300K towards the construction of our current clubhouse.

**Ar dheis Dé go raibh a h-anam dílis**

Our condolences to Anna's family, husband Liam, daughter Tara, sons Mark and Shane and to the Mescall family, sister Margaret, brothers, Eddie, Pat, Martin, Frank and Gerard, on the untimely passing of Anna. Anna was a staunch and loyal supporter of the club, she played a major role in many club activities, from social committees, fundraising, served on the executive and while not a golfer, spent whole days registering teams and collecting fees at the Golf Classics. Anna did all this without question; and will be forever missed by all in Lucan Sarsfields.  
*Mick Molloy*

We are all greatly saddened to hear of Anna's passing. A passionate supporter of Lucan Sarsfields, she did exceptional voluntary work for many years on behalf of the Club, as both Club Treasurer and, more recently, as Club Trustee. She was a lady of many talents, no more so than in Irish dancing, in which she regularly participated at the Céilí in the old clubhouse with her dancing partner, Joan Molloy. It's no surprise that, as a native of the Banner County, she specialised in the Siege of Ennis and the Clare Set. All of us amateurs learned a lot from just watching Anna and Joan! Off the dance-floor, she was quite reserved, never seeking the limelight, but working very effectively for the Club and getting great enjoyment from it. Both Anna and Liam gave so much to Lucan Sarsfields and have contributed hugely to the great Club and great camaraderie we enjoy today.

**Covid-19 Update from Club Chairperson, Colm Farrell.** So we finally have some good news. U18 and under can return to non-contact training from April 26th!! It's been a long wait but at least we have this to look forward to. Hopefully, a return to training for Adult teams is not too far behind the April 26th date. Return to play for all should follow by mid-summer. Our club remains closed, but when we do reopen, I'm sure all of you will be impressed with the work that has been completed in the clubhouse by our team of volunteers! Let's look forward to a return to play in the summer and hopefully as things open up further later in the year, we can all look forward to sitting, in our newly refurbished bar discussing the days games over a warm cup of tea or a nice cold beverage!

As we prepare to return to training, a reminder to all that club membership is open for renewal; for Insurance purposes, membership needs to be renewed for all mentors and players prior to returning to training. To renew or take out membership please use the ClubForce app or visit [http://www.lucansarsfields.ie/content\\_page/37067/3/](http://www.lucansarsfields.ie/content_page/37067/3/) and follow links on the page. ## Boules Club initiative in St. Catherine's Park

I have contacted Fingal County Council re the installation of Boules Pitches in the park.

Boules, a French version of bowling, is an outdoor game suited to all ages.

There are currently clubs in operation in Marlay Park on the south side and others in north Dublin.

Fingal Co. Co. is inviting expressions of interest in this fun and very enjoyable game, and want to gauge numbers to proceed with this venture.

**If you are interested** please contact me  
**Paddy Farrell 0861919682**  
or [paddyfarrell50@gmail.com](mailto:paddyfarrell50@gmail.com)

May you never forget what is worth remembering nor never remember what is best forgotten.

Start each day with a positive thought, like:

*"I can go back to bed in just 17 short hours".*

## St. Mary's Camera Soirée

The effects of the prolonged lockdown are finally having an effect on the productivity of the photographers in St. Mary's Camera Soiree reflected in the fact that in the last week only seven or eight photographs were exchanged on WhatsApp. There is clearly a limit to what anybody can photograph when confined to a radius of 5 km from your house for over three months.

Still, what was submitted is beautiful - blossoms in St. Catherine's Park, barges on the canal and another bee! Let us hope that we will all be out with renewed enthusiasm and going further afield with our cameras when the new relaxed arrangements come into force.

On a positive note, participation in the online Friday morning club meeting nearly constitutes a full attendance of all the members. Last Friday we looked at the photographs of the 7 finalists in the RTE "The Eye on Nature" competition and each of us chose our own winner. The result was quite interesting proving that beauty is in the eye of the beholder!

Finally, a word to those who responded to the invitation to join the group in last weekend's newsletter! We will be in contact as soon as possible.

Until next week stay safe and a happy and holy Easter to all readers of the Newsletter.
